

# Non-Slewing Articulated Crane

**SAFETY<sup>™</sup>  
ACTION**

**AXIOM  
TRAINING**

Operating an articulated pick and carry crane is a specialised skill.

## **Capacity**

4 attendees

## **Duration**

8 Hours

## **Locations**

At your own site or workplace

## **Overview**

On course completion trainees will be able to apply theory and skills in lifting and placing regular loads with a non-slewing crane and analyse and evaluate processes, through practical experience.

## **Prerequisites**

**3789** - Sling regular loads and communicate during crane operations.

Minimum verified experienced of 40 lifts (slinging and directing placement of load) with at least six variations of lifting operations that may include site, crane, loads, and communication methods.

This documentation can be sent in at time of booking, ahead of training or post training. Please note: this unit standard can only be awarded once this documentation is received.

## **Course Content**

- ✓ Identify hazards
- ✓ Complete daily and weekly operator maintenance of a non-slewing articulated crane
- ✓ Mobilise, position and configure a non-slewing articulated crane
- ✓ Lift and place irregular and regular loads
- ✓ Travel the crane with a load on the hook
- ✓ Complete required documentation to travel a crane with a load on the hook
- ✓ Prepare a non-slewing articulated crane and complete documentation for crane travel

## **Unit Standards**

**24511** Configure a non-slewing articulated crane, and lift and place regular loads
