At your own site or workplace

Overview

This course will support anyone that is involved in or responsible for the prevention and management of discomfort, pain and injury within your organisation. Gain clarity on effective methods to use, including lifting and moving techniques that will relate directly to common workplace activities and knowledge around combating back and musculoskeletal injuries.

Prerequisites

Students need to have 3 months of work experience in the industry prior to doing the course.

Course Content

- ✓ Describe what is meant by discomfort, pain and injury
- ✓ Outline the groups of contributory factors that lead to discomfort, pain and injury
- ✓ Describe the contributory factors that individuals and workplaces need to consider when preventing and managing discomfort, pain and injury
- ✓ Outline measures used to manage the risks to staff experiencing discomfort, pain and injury

Unit Standards

UNIT 17591 Demonstrate knowledge of the prevention and management of Discomfort, Pain and Injury (DPI) in the workplace
