

Confined Space Entrant – Wine Industry

**SAFETYTM
ACTION**

**AXIOM
TRAINING**

Understand the requirements for observing or entering confined spaces in the wine industry.

Capacity

12 Attendees

1 Day Workshop

8 Hours

Locations

At our local vineyard
At your own site or workplace

Overview

This course is designed for anyone working in, or around confined spaces in the wine industry. During the course you will gain important knowledge around the potential hazards found in this environment, as well as how to implement the necessary control measures. You will also carry out practical tasks, including entry and rescue procedures, with the plant and equipment used in the wine industry.

Prerequisites

Students need to have 3 months of work experience in the industry prior to doing the course.

Course Content

- ✓ Demonstrate knowledge of hazards associated with confined spaces
- ✓ Demonstrate knowledge of permit notification and implementation requirements
- ✓ Identify control measures for hazards
- ✓ Demonstrate knowledge of the requirements for gas detection
- ✓ Demonstrate knowledge of the responsibilities of people entering a confined space or conducting observation duties
- ✓ Gain practical reinforcement of the knowledge and skills obtained during this training

Unit Standards

UNIT 18426 Demonstrate knowledge of hazards associated with confined spaces
