

Mobile Crane

**SAFETY[™]
ACTION**

**AXIOM
TRAINING**

On course completion trainees will be able to apply theory and skills in lifting and placing regular loads with a mobile crane and analyse and evaluate processes, through practical experience

Capacity
4 attendees

Duration
8 Hours

Locations
At your own site or workplace

Overview

This course will develop your overall knowledge and understanding of mobile crane operations and test your skills for carrying out daily checks, servicing and operating mobile cranes, whilst also learning about new developments relating to the crane industry and regulations.

Prerequisites

3789 - Sling regular loads and communicate during crane operations

Experience Required: Verified experiences from authorised verifier documented and observed lifts, or company documents with a minimum of 40 lifts (slinging and directing placement of load) with at least six variations of lifting operations that may include site, crane, loads, and communication methods.

Course Content

- ✓ Demonstrate knowledge of using a track crawler crane
- ✓ Carry out daily and weekly safety and maintenance of a track crawler crane with a lattice boom
- ✓ Configure and position a track crawler crane
- ✓ Lift and place regular and irregular loads with a track crawler crane
- ✓ Place a track crawler crane with a lattice boom in out-of-service condition, and complete documentation

Unit Standards

UNIT 3795 Configure and position a mobile crane, and lift and place regular and irregular loads
