

Axiom Training is an accredited mobile testing centre for the ConstructSafe system, which is owned by the Construction Safety Council.

### Capacity

7 attendees

### 2 Day workshop

16 Hours

### Locations

At our local training centre  
At your own site or workplace

## Overview

ConstructSafe aims to provide industry with assurance that individuals have the knowledge and ability to keep themselves and others safe. This is achieved through a testing process of knowledge and behaviour against a framework designed and developed based upon industry needs.

## Prerequisites

Attendees must provide photo ID on the day of testing. Acceptable forms of ID are:

Driver Licence - a valid New Zealand photo card driver licence

Firearms licence - standard New Zealand Firearms Licence

Passport - passport of any nationality valid and signed with a photograph of the candidate

If a candidate is unable to provide any of these forms of ID please contact us to discuss options

## Course Content

The testing framework for Tier 1 – Health and Safety Competency Test covers the full range of foundational knowledge expected by industry:

- ✓ General safety knowledge
- ✓ Confined and restricted spaces
- ✓ Working at heights
- ✓ Chemicals and hazardous substances
- ✓ Emergencies
- ✓ Plant
- ✓ Traffic
