

VR Conflict De-escalation

**SAFETYTM
ACTION**

**AXIOM
TRAINING**

New technology supporting valuable learning. With rising aggression toward frontline staff, it's crucial to equip them with practical skills for de-escalation and safe restraint when necessary.

Capacity

12 Attendees

Duration

Half Day (4 Hours)

Locations

At our local training centre
At your workplace

Overview

With increasing levels of aggressive and violent behavior towards frontline staff, navigating health and safety wellbeing compliance and governance has never been more challenging. It's now more important than ever to equip frontline staff with proven strategies to de-escalate and stay safe in conflict situations.

This immersive experience moves the learner from taking a back seat to learning and propels them to be a leading role in the story. With the use of Virtual Reality, we are able to offer up scenarios that mimic real-life experiences to better equip your team members with the skills to look for cues and de-escalate potential high-risk situations.

Course Content

- ✓ Learn the signs of imminent violence, when to escape to safety, and how their actions can change the course of the interaction.
- ✓ Understand and demonstrate how to self-manage their tones and gestures to facilitate de-escalation and escape a situation immediately when they identify violence.
- ✓ Gain a clear understanding that their safety and the safety of those around them is the most important thing in a conflict situation.
