

# Coordinated Incident Management System (CIMS)

**SAFETY<sup>™</sup>  
ACTION**

**AXIOM  
TRAINING**

#### **Capacity**

12 attendees

#### **Duration**

8 Hours

#### **Locations**

At our local training centre  
At your own site or workplace

### **Overview**

The course covers the roles and principals, functions and structures and the terms used in the CIMS framework. The Introduction to CIMS course is recommended for all people involved in any aspect of emergency response. The Coordinated Incident Management System (CIMS) provides the structure for the command, control and coordination response to an emergency incident, so all personnel should have a basic understanding of the principles of CIMS, its terminology and key functional areas

### **Prerequisites**

Students need to have 3 months of work experience in the industry prior to doing the course.

### **Course Content**

- ✓ Knowledge of roles and principles of CIMS
- ✓ Knowledge of functions, structure and terms used in the CIMS framework
- ✓ Practical scenario using an incident action plan

### **Unit Standards**

**UNIT 32158** Demonstrate basic knowledge of New Zealand's Co-ordinated Incident Management System
